

Let's Make a Campfire!

Ingredients Needed:

- Peanut Butter
- 1 Rice Krispie Bar
- 1 Graham Cracker
- 4-6 Apple Slices
- Carrot Shavings

1

Find a clear area free of dry debris and grass

- Using peanut butter, simulate the perfect campfire location. Cover the bottom of your bowl in a thin layer of peanut butter

2

Create a fire ring - Pinch off small pieces of Rice Krispie and form a rock shape. Line them around the edge to create a ring that will keep the fire contained.

Add the tinder - Crumble your graham cracker in the middle of your fire ring to represent the small try items needed to start a fire.

3

Add the kindling - Carefully arrange the apples over the tinder to represent the kindling/larger sticks added over the tinder. Bonus points for leaving space for air to flow through and help the fire!

4

Add the flames - Put the carrot shavings between the apple kindling (use a bit of peanut butter to hold them in place if needed).

SUCCESS! Fire is coming from your campfire!
